These coins celebrate a Ukrainian folk song, the author of which is known. After Russia's vicious war on Ukraine, this song is sung with renewed vigor as a modern symbol of Ukraine's indomitability and resistance to Russian invasion. Ukrainian songs are brilliant poetic stories, and a spiritual and moral treasury of the Ukrainian people.

It is from songs that the good, generous and beautiful souls of Ukrainians speak. Songs reflect ideals, such as love for the homeland, rejection of any oppression, courage and bravery in fighting the enemy. "Oh, the Guelder-Rose in the Meadow" is one such song, as its history is the history of the Ukrainian people.

This folk song, which has been known since Cossack times in the XVII century, was developed, added to and given a new meaning during the Ukrainian revolution in the early 20th century. It is now sung worldwide in different languages, uniting Ukrainians with previous generations of freedom fighters in Ukraine.

Obverse: against a smooth background, to the left, is Ukraine's small coat of arms; in the center,

there is a stylized symbolic composition: different generations of defenders: a Cossack, a Sich rifleman, and a modern soldier of the Ukrainian Armed Forces are raising a guelder-rose – a poeticized symbol of Ukraine, the crown of which resembles the outlines of Ukraine's borders; above is the following semicircular legend: А МИ ТУЮ ЧЕРВОНУ КАЛИНУ ПІДІЙМЕМО (But we will raise that red guelder-rose up), beneath are the coin's issue year – 2022 and the semicircular legend УКРАЇНА (Ukraine); to the right is the coin's face value: 10 on the silver coin and 5 on the nickel silver coin; there is also the graphic symbol of the hryvnia.

On the nickel silver coin, the mint mark of the NBU's Banknote Printing and Minting Works is located beneath, to the right, under the coin's face value.

Reverse: against a smooth background, above is the semicircular legend that continues the song: А МИ НАШУ СЛАВНУ УКРАЇНУ, ГЕЙ, ГЕЙ, РОЗВЕСЕЛИМО! (And we will cheer up our glorious Ukraine, hey, hey, cheer up!); in the center is a branch with guelder-rose leaf and berries.

*Edge: smooth with incised inscriptions indicating the metal and its fineness Ag 925, fine weight 31.1, and the mint mark of the NBU's Banknote Printing and Minting Works.

This coin commemorates a Princess of Kyiv, the eldest daughter of Yaroslav the Wise, under whose rule the Kyivan Rus state reached the peak of its power and who, with a diplomatic goal, concluded dynastic marriages that cemented foreign political alliances and raised the prestige of the state. In 1044, Yelysaveta became the wife of King of Norway Harald Sigurdsson, who during his first visits to Kyiv had fallen in love with the princess and, having gained fame and treasures, returned to marry her. In her second marriage, Yelysaveta Yaroslavna wed King of Denmark Sweyn II Estridsson after the death of Harald, who was killed in battle. The main sources containing information about Yelysaveta are the Icelandic sagas, the West European chronicles, and poems by Harald himself, which he composed in honor of Yaroslav's daughter.

This commemorative coin features the brown bear. The Chornobyl Radiation and Ecological Biosphere Reserve – located in the area affected by the Chornobyl nuclear power plant disaster – is a unique nature reserve in Ukraine. Despite suffering a catastrophe on a planetary scale, nature has been recovering here at a surprisingly fast pace. These vast areas have become a kind of reserve for the recovery of fauna typical for the Polesia region, including animals on the list of endangered species. The area is seeing the return of large animals to their natural habitats from which they were previously completely eliminated by humans. One of these species is the brown bear, which reappeared in the decades following the accident, a hundred years after it was last seen there. Photo traps have from time to time recorded the presence of brown bears in the reserve. Experts suggest that in the future about 40 brown bears may comfortably live in both reserves – the Chornobyl reserve and the Polesia State Radiation and Ecological Reserve (in the territory of Belarus), which borders the Chornobyl reserve.

Obverse: above is Ukraine's small coat of arms with the following legends: УКРАЇНА (Ukraine) (underneath the coat of arms); the coin's face value 5/ГРИВЕНЬ (5/hryvnias) (to the right of the coat of arms); in the center is a wheel of life that symbolizes the rebirth of nature: a stylized international radioactive sign shrouded in leaves surrounded by animals that are increasing their populations in the 30-kilometer exclusion zone, which has become a special breeding reserve for black storks, Przewalski's horses, lynxes, bison, moose, and brown bears; there is a circular legend against a smooth background, reading: ЧОРНОБИЛЬСЬКИЙ РАДІАЦІЙНО-ЕКОЛОГІЧНИЙ БІОСФЕРНИЙ ЗАПОВІДНИК (Chornobyl Radiation and Ecological Biosphere Reserve) (to the left), CHORNOBYL RADIATION AND ECOLOGICAL BIOSPHERE RESERVE; the coin's issue year 2022 (below); and the mint mark of the NBU Banknote Printing and Minting Works (above).

Reverse: against the outline of a landscape scene is a brown bear (pad printing), above there is the legend, against a smooth background: ВЕДМІДЬ/БУРИЙ (BEAR/BROWN) / URSUS ARCTOS; above is a sow with a cub.

These coins commemorate the granting of EU candidate status to Ukraine. Obtaining the status is an important result of Ukraine's long path to European integration. Obverse: against a smooth background, is a stylized image of the European continent, to the left of which is a decorative element in the form of mosaic decorations – symbolizing various nations and cultures, the freedom to make one's own life choices, and the absence of formal borders; on the European continent, an outline of Ukraine is traced – showing that Ukraine, like a puzzle piece, completes the integrity of Europe and “returns” to its European home, in which the country has always had an indirect presence, which began with the dynastic ties of Kyivan Rus; to the right are Ukraine's small coat of arms, the semicircular

legend УКРАЇНА (Ukraine), the coin's face value – 10 on the silver coin and 5 on the nickel silver coin, and the graphic symbol of the hryvnia (on both coins); beneath are the coins' issue year – 2022 and the legend ПОВЕРНЕННЯ ДОДОМУ (the return home).

This banknote celebrates the 300th anniversary of the birth of Hryhorii Skovoroda – a prominent Ukrainian philosopher, poet and teacher, who studied at the Kyiv Mohyla Academy.

Skovoroda is one of the foremost figures in Ukrainian philosophy and literature. Skovoroda, whose thoughts focused on the vital and existentially important problems of human existence, remains an influential figure, thinker and writer.

An organic combination of personal and public motifs is the most characteristic feature of Skovoroda's poetry. The collection of poems "The Garden of Divine Songs" is a kind of lyrical diary of Skovoroda, describing events in the poet's life, as well as his moral and philosophical reflections on the meaning of life, true happiness, goodness, honesty, and so on. The collection consists of 30 songs.

Obverse: beneath is Ukraine's small coat of arms, to the left of the coat of arms are the legend УКРАЇНА (Ukraine) and the coin's issue year – 2022; to the right of the coat of arms are the coin's face value – 20 and the graphic symbol of the hryvnia; the main composition depicts a symbolic stylized fountain – an allegory of God – which fills various vessels with water – metaphors for humans and the human soul. On the one hand, the vessels are of different sizes, which makes them unequal. On the other hand, they are all filled with water, and therefore equal. Each vessel has a different volume,

but receives enough water to be filled with it (a plastic representation of Skovoroda's graphic picture "Equality Unequal for All." Above the life-giving fountain, grow the "paradise trees" of the garden of divine songs, around which lines from the collection "The Garden of Divine Songs" are inscribed: EACH CITY HAS ITS CUSTOMS AND ITS LAWS, EACH HEAD ITS OWN INNATE INTELLIGENCE, EACH HEART SEEKS LOVING FOR ITS OWN SWEET CAUSE, EACH PALATE SAVORS THROUGH ITS OWN FINE SENSE. WITHIN MY MIND A SINGLE THOUGHT INTENSE SEEKS HOW TO LIVE, AND DIE, IN INNOCENCE... O FEARFUL DEATH! THOU SCYTHE THAT SLITS ALL LIFE! EVEN THE HEADS OF KINGS THOU SPAREST NOT. ALIKE TO CZAR AND PEASANT COMES THY KNIFE, DEVOURING ALL, LIKE STRAW IN BLAZES HOT. ONLY THAT MAN HER SHARP STEEL NEED NOT FEAR WHOSE CONSCIENCE, AT HIS DEATH, IS CRYSTAL CLEAR. above is the following legend: САД БОЖЕСТВЕННИХ ПІСЕНЬ (Garden of Divine Songs).

Reverse: there is the following metaphoric composition: a young man sitting under a cherry tree and playing a pipe; next to the young man is an open book – Skovoroda's symbolic world; to the left of the young man are the legends 300 РОКІВ (300 years) and ГРИГОРІЙ (Hryhorii) (vertically); to the right of the young man is the vertical legend СКОВОРОДА (Skovoroda); around the young man are smooth symbolic outlines that are trying to catch the philosopher; above is the semicircular legend: СВІТ ЛОВИВ МЕНЕ, ТА НЕ СПІЙМАВ (The world tried to catch me, but failed).

*Edge: smooth with incised inscriptions indicating the metal and its fineness Ag 925 and fine weight 62.2; there is also the mint mark of the NBU's Banknote Printing and Minting Works. Decorative element: local gilding, fine gold no less than 0.001 g

This set celebrates the main state regalia and the symbols of Ukraine that embody the national idea and reflect the state's historical continuity.

Ukrainian state symbols tell millions of Ukrainians about the glory of their ancestors.

The trident – a symbol of the Kyiv state of Volodymyr the Great – symbolizes the continuity of the historical development of the Ukrainian people.

The song “Ukraine is not Yet Dead” has, for a century and a half, become a powerful symbol of Ukrainians’ struggle for independence, and is now their national anthem.

The combination of blue and yellow – which has long been used by Ukrainians to represent their identity, and which stands for a clear sky and a wheat field – was for the first time officially approved as the Ukrainian flag by the Ukrainian People’s Republic.

The set consists of the following coins: Ukraine’s Coat of Arms, Ukraine’s Flag, and Ukraine’s Anthem.

Obverse of Ukraine’s Coat of Arms coin: above is Ukraine’s small coat of arms – a golden trident on a blue shield (pad-printed); against the backdrop of sunrays is a stylized trident of the kind that was used by Volodymyr the Great; the lines of the trident show how tridents are formed; to the left are the legends 2022/УКРАЇНА/5 ₴ (2022/Ukraine/5 ₴), the graphic symbol of the hryvnia and the legend /НАШ/ГЕРБ (Ukraine’s coat of arms); beneath is the mint mark of the NBU’s Banknote Printing and Minting Works.

This coin celebrates Archangel Michael – one of the most revered biblical characters, who is called the chief commander of the Heavenly Host. Archangel Michael is a steadfast fighter against evil forces, defender of the faith, and the patron of soldiers who fight for just causes and protect the good.

Archangel Michael has been revered since the time of the Kyiv Rus State – he was a symbol of the heavenly protection of the power of Kyiv Rus princes. Later on, this reverence was manifested not only in toponyms – in the names of church buildings, but also in heraldry – on the coats of arms of Kyiv, the Voivodeship of Kyiv, and the Province of Kyiv. Today, his image is found in the attributes of Ukrainian paratroopers, embodying once again the fight against evil.

Obverse: above is Ukraine's small coat of arms, below which is the legend УКРАЇНА (Ukraine); against the background of a pattern made of stylized Old Rus

Kyiv-type hryvnias – used as a unit of weight and counting and a monetary unit – is a stylized wreath made of laurel leaves; at the bottom of the coin are its face value 10 and the graphic symbol of the hryvnia; in the center, in an octagonal cartouche, against a smooth background, is the NBU logotype, below which is the following legend: НАЦІОНАЛЬНИЙ/БАНК УКРАЇНИ/2022 (National/Bank of Ukraine/2022).

Reverse: against a smooth backdrop, is an image of Archangel Michael (decorative element – local gilding); there is a circular legend, reading: ...ЗА НАС І ДУШІ ПРАВЕДНИХ, І СИЛА АРХІСТРАТИГА МИХАЇЛА (...the souls of the righteous and the power of Archangel Michael are with us) (from the Haidamaky poem by Taras Shevchenko); the lines are written in ChebanykSansN.2017 © VasyI/Chebanyk script.

*Edge: smooth with incised inscriptions indicating the metal and its fineness Ag 999 and fine weight 31.1; there is also the mint mark of the NBU's Banknote Printing and Minting Works.

The humorist drew inspiration from the treasures of the living Ukrainian language, tapping real gems of folk wisdom as inexhaustible sources for his work. The satirist had a gentle and cheering sense of humor; his fables are witty and apt; a lot of his works resemble folk humor and put people in good spirits.

The writer uses humor to express love for his native land, his people, and his affection for the Ukrainian language and Ukrainian art, lifting people's spirits in the most difficult times. Hlazovyi's works are also a window into the cheerful nature of the Ukrainian people.

Obverse: above, against a smooth background is the semicircular legend УКРАЇНА (Ukraine),

to the right of which are Ukraine's small coat of arms and the coin's issue year – 2022; in the center is the following composition: against the backdrop of a stylized open book is a rocking chair, above which the satirist's muse flies; to the right are theatrical masks symbolizing the theater of life, the negative aspects of which the poet exposes and satirizes; beneath is the coin's face value in the form of a semicircular legend 2 ГРИВНІ (two hryvnias); beneath, to the right is the mint mark of the NBU's Banknote Printing and Minting Works.

This medal celebrates the Security Service of Ukraine – a special purpose government agency with law enforcement functions that ensures the state security of Ukraine.

It was officially established on 25 March 1992. The Security Service of Ukraine continually faces extremely serious challenges – protecting the state’s security, sovereignty, constitutional order and territorial integrity, as well as strengthening the country’s defense potential.

Obverse: at the top, against a smooth background is the semicircular legend УКРАЇНА (Ukraine); in the center is the emblem of the Security Service

of Ukraine, on either side of which is a serviceman of the agency; under the emblem is the legend 2022; beneath is the following semicircular legend: 30 РОКІВ СЛУЖБИ БЕЗПЕКИ УКРАЇНИ (30 years since the establishment of the Security Service of Ukraine); to the right is the mint mark of the NBU’s Banknote Printing and Minting Works.

Reverse: against a smooth background is the central building of the Security Service of Ukraine; above the following semicircular legends: above – СЛУЖБА БЕЗПЕКИ УКРАЇНИ (Security Service of Ukraine); beneath – ДБАЄМО ПРО ВАШУ БЕЗПЕКУ! (We strive to protect your security!).

This roll celebrates the territorial defense forces of Ukraine's Armed Forces. This is a special unit of Ukraine's Armed Forces that is responsible for organizing, preparing and carrying out territorial defense tasks as set forth in Ukraine's Law On the Basics of National Resistance.

Each roll features a holographic element designed to control access to the contents of the roll. The holographic element is made of a multi-layer metallized film and has the form of round self-adhesive labels 25 mm in diameter (the foil is silver in color). Any attempt to remove the holographic image from the roll destroys the image, creating a characteristic pattern in the form of honeycombs, making it impossible to reuse the holographic element and indicating that a roll has been compromised.

The holographic element depicts the logotypes of the National Bank of Ukraine and the Territorial Defense Forces of Ukraine's Armed Forces.

The background of the holographic element has dynamic light effects: when looked at from

different angles, the colors of the lines that form the logotypes of the National Bank of Ukraine and the Territorial Defense Forces of Ukraine's Armed Forces, as well as those of other legends, microlettering and micro images, change dynamically.

Obverse: above is Ukraine's small coat of arms; in the center, surrounded by an old Rus ornament is the following semicircular legend: УКРАЇНА/10/ ГРИВЕНЬ (Ukraine/10/hryvnias); against the backdrop of the ornament are the coins' issue year – 2022 (beneath) and the mint mark of the NBU's Banknote Printing and Minting Works (to the right).

Reverse: there are two stylized figures of servicemen; to the left of the figures is the logotype of the Territorial Defense Forces; and there is the following circular legend: ГОТОВІ ДО СПРОТИВУ (Ready for Resistance) (above) and СИЛИ ТЕРИТОРІАЛЬНОЇ ОБОРОНИ ЗСУ (Territorial Defense Forces of Ukraine's Armed Forces) (beneath).

This medal celebrates the Ukrainian National Museum of Chicago, which also serves as an archive. The museum, which was established by the efforts of several generations of emigrants to preserve the spiritual heritage of the Ukrainian people, represents Ukrainian history and culture on the American continent.

Founded in 1952, the museum plays an important role in the cultural and artistic world of the Ukrainian diaspora in the United States, serving as a place where people can unite around the idea of Ukraine's independence, and shaping the national identity of Ukrainians.

The museum boasts about 100,000 pieces of archive materials about the history and culture of Ukraine and unique relics of the past – from the Cossack age to the present, which tell about the national

liberation struggle, artificial famine as an act of genocide against the Ukrainian people, and their path to independence.

Obverse: there is a stylized composition that symbolizes a respectful and reverential attitude to the Ukrainian heritage that is stored at the museum: hands supporting the logotype of the museum; above the hands is a guelder rose branch; beneath are Ukraine's small coat of arms, the semicircular legend УКРАЇНА (Ukraine) and the medal's issue year –20/22; under the composition is the mint mark of the NBU's Banknote Printing and Minting Works.

This medal celebrates unconquered Kherson and heroic Kherson oblast, which is washed by two seas, and through which run land routes to occupied Crimea.

Kherson oblast, which has a long history, is the land of Cossack glory and a cradle of shipbuilding. Kherson oblast was occupied by the enemy from the first days of the full-scale invasion, with Kherson being the only regional center that the Russian invaders managed to capture from 24 February 2022.

Kherson oblast became one of the centers of the partisan resistance movement. Despite the danger and aggression, city and oblast residents resolutely attended rallies and launched a public resistance movement.

The city, which was occupied for 256 days, was liberated by Ukraine's Armed Forces and came again under the Ukrainian flag.

Obverse: above is the legend 2022/УКРАЇНА (2022/Ukraine); beneath is Ukraine's small coat of arms; in the center is a stylized map of the city; against the backdrop of the map are the following lines from Lina

Kostenko's historical novel "Berestechko": НЕ ДОПУСКАЙ ТАКОЇ МИСЛІ, /ЩО БОГ ПОКАЖЕ НАМ НЕЛАСКУ./ ЖИТТЯ ЛЮДСЬКОГО СТРОКИ СТИСЛІ./ НЕМАЄ ЧАСУ НА ПОРАЗКУ./ ЛІНА КОСТЕНКО (REFUSE TO THINK/ THAT GOD WILL SHOW US NO FAVOR./ HUMAN LIFE IS SHORT./ THERE IS NO TIME FOR A DEFEAT./ LINA KOSTENKO; to the left are port cranes; to the right is Stanislav–Adzhyhol Lighthouse – a historical and cultural monument; there are also images of dolphins and seagulls; to the left, above the cranes is the mint mark of the NBU's Banknote Printing and Minting Works.

Reverse: against a smooth background is the legend ХЕРСОН/МІСТО ГЕРОЇВ (Kherson/City of Heroes), which divides the medal into two halves; in the upper half, against a smooth background, is a composition symbolizing people's resistance to Russian occupation and the warm reception given to Ukrainian soldiers after the liberation; the lower half depicts a stylized view of the city as seen in perspective; it shows the city's historical buildings, Antonov Bridge, a sculpture from Kherson Park of Glory; a monument to the first ships made in the city, and so on.

This medal celebrates the heroic, proud and unconquered city of Kharkiv. The city, which since the first days of the full-scale Russian invasion of Ukraine had been subjected to mass terror attacks – bombings, shelling, the destruction of residential buildings and infrastructure, the loss of human life in the city and the entire oblast – still continued to resist the enemy.

Kharkiv is a city of heroes who proved to the entire world that they can endure hardship: babies were born, students were taught, and the economy of the city adapted to the war conditions, to the sound of explosions. A lot of entrepreneurs have changed their business lines and put their businesses in what they call “military mode.” The city’s cultural figures, artists, poets, writers and activists were fighting on their own frontline.

The lightning counteroffensive in Kharkiv oblast fulfilled its strategic goal – it changed the course of the war and was one of the first significant successes of Ukraine’s Armed Forces on the way to the complete restoration of Ukraine’s territorial integrity.

Obverse: above is the legend 2022/УКРАЇНА (2022/ Ukraine); beneath is Ukraine’s small coat of arms; in the center is the following composition: against the backdrop of a stylized map of the city are the following lines from Lina

Kostenko’s historical novel “Berestechko”: ЧИ СПРАВДІ ВІРИВ Я У ПЕРЕМОГУ/В ТАКІЙ ТЯЖКІЙ НЕРІВНІЙ БОРОТЬБІ?/ТАК, ВІРИВ Я. НАЙПЕРШЕ ВІРИВ – БОГУ./ І ВІРИВ ЛЮДЯМ. ЛЮДЯМ І СОБІ./ЛІНА КОСТЕНКО (DID I REALLY BELIEVE IN VICTORY/IN SUCH A HARD, UNEQUAL FIGHT?/YES, I DID. FIRST OF ALL I BELIEVED IN GOD./AND I BELIEVED IN PEOPLE. IN PEOPLE AND IN MYSELF./LINA KOSTENKO; there is a collage consisting of the city’s famous sights: Kharkiv’s monument to Taras Shevchenko – one of the best examples of monumental art (to the left), the Derzhprom building – a UNESCO World Heritage Site built in the 1920s in the Constructivist style, and the Mirror Stream – a gazebo fountain, which is among the city’s modern highlights; to the left, above the monument is the mint mark of the NBU’s Banknote Printing and Minting Works.

Reverse: against a smooth background is the legend ХАРКІВ /МІСТО ГЕРОЇВ (Kharkiv – City of Heroes), with the letter I in the word Kharkiv made to look like a candle; the legend divides the medal into two parts that have a common idea: the upper part depicts buildings that have been battered and mutilated by artillery shells and bombs; the lower part features a stylized view of the city as seen in perspective, showing the city’s historical monuments and Cuman stone women from Kremenets Mount near the city of Izium – monuments of sacred art dating back to the 9th–13th centuries.

This medal celebrates the inhuman valor, great strength, indomitable spirit, struggle, heroism and tragedy of the city of Mariupol and the hero-fighters of the city who valiantly defended the city from Russian invaders.

The resolute resistance of Mariupol's defenders frustrated Russia's objective to capture Mariupol quickly, drawing the enemy forces and weapons onto themselves, and slowing the advances of Russian troops in other operational areas.

The defense of Mariupol and Azovstal, which lasted for 86 days, during 82 days of which the defenders were completely besieged, is one of the most outstanding examples of the valor of Ukrainian soldiers in recent history.

Obverse: above is the legend УКРАЇНА (Ukraine), under which is Ukraine's small Coat of Arms; there is the following composition that symbolizes the hero city: the facade of Mariupol Drama Theater while

under attack (to the left) and stylized buildings of the Azovstal Plant being bombed (to the right); against a matt background there is the following smooth legend: МІСТО/ МАРІУПОЛЬ/ГЕРОЇВ/2022 (CITY/ MARIUPOL/HEROES/2022); the letter «I» in the name Mariupol has been replaced with a candle in memory of the dead; the letter «o», which is in the form of a map of the city, includes the profiles of a child and an adult, symbolizing forced deportation; beneath, against the backdrop of stylized waves, is an anchor, standing for a heraldic element on Mariupol's coat of arms and representing hope for the city's liberation and revival; the mint mark of the NBU's Banknote Minting and Printing Works is beneath, to the right.

Reverse: against a smooth background is a Ukrainian soldier, who is devoted to Ukraine and ready to defend the state to the last; the soldier is surrounded by stylized debris, weapons, crosshairs and the vertical inscription reading АЗОВ (AZOV) (top left) and СТАЛЬ (STEEL) (bottom right).

This medal celebrates the fortitude, resilience and heroism of Ukrainians and honors the memory of the dead.

After the Russian invasion on 24 February 2022, fierce fighting broke out in Irpin, Hostomel, Bucha, and other towns and villages in the suburbs of Kyiv. With a view to encircling Kyiv, columns of armored vehicles and airborne troops of the Russian army captured populated areas near the capital. There they destroyed a lot of housing and infrastructure and committed mass war crimes against the civilian population: looting, physical violence, and the kidnapping and killing of people, including children.

On 2 April 2022, Kyiv Oblast was liberated from the Russian invaders thanks to the joint efforts, professionalism and heroism of all defense forces, and help provided by local residents.

The liberation revealed the terrible truth about the horrific mass killings of civilians and the atrocities committed by the occupiers. These crimes shocked the global community so much that it launched an investigation of the war crimes and crimes against humanity caused by Russia's aggression against Ukraine.

Obverse: above is Ukraine's small coat of arms, to the right of which is the legend 2022/УКРАЇНА (2022/Ukraine); in the center, against a smooth background, is a stylized composition depicting maps of Kyiv Oblast cities:

Hostomel, Bucha and Irpin; together, the maps resemble a heart; above, to the right of the composition, is an enemy paratrooper with a perforated parachute; above the composition is the legendary Mriia plane; in the center, against a smooth backdrop, is a tear; beneath, to the left, is a stylized flower that symbolizes the revival of life. To the left of the central composition are stylized house windows; to the right are flying bullets; beneath are the legend КИЇВЩИНА/МІСТА ГЕРОЇВ (Kyiv Oblast/Cities of Heroes) and the mint mark of the NBU's Banknote Printing and Minting Works. The composition is complemented with images symbolizing wounds caused by the physical and moral suffering inflicted on Ukrainians by the occupiers: a wound against a smooth background (to the left, above the windows), a stitched wound (to the right, above the bullets), and a wound stitched with a national embroidery element (to the left, below the windows); beneath, to the right is a national embroidery element symbolizing the healing of wounds and revival).

Reverse: against a smooth backdrop is a girl on a swing; the girl's hair ribbon breaks as she swings, symbolizing a premature death; beneath, to the right are footprints made with the dirty boots of the enemy who intruded on the peaceful lives of Ukrainians; to the left, next to the girl is a bird that symbolizes the continuity of life; above is a stylized city; to the left is a forest; beneath is a river of life that has been ripped through with bullets.

This banknote marks the 300th anniversary of the birth of Hryhorii Skovoroda – a unique, extraordinary, eminent personality, whose work remains relevant throughout the ages.

For anyone who has ever read Skovoroda’s works, he is not merely a wandering philosopher, writer and historian, but also a person who inspires many generations into action, while his written legacy serves as «an instrument of various ideas and perspectives”.

The philosopher thought that the main thing in life was a sense of freedom: “What is freedom? What good is there in it? Isn’t it like gold, they say? Certainly not, it’s not gold: compared to freedom, gold is just a swamp. Oh, If only I didn’t make a fool of myself, I wouldn’t live a day without freedom...” [poem “De libertate” (About freedom)].

Today, the entire world is witnessing what Ukrainians can do to protect their freedom, and can see the unbearably high price they are paying for it!

The commemorative banknote replicating the 500 hryvnia banknote designed in 2015 has the following series: ГС No. 0000001–0050000. The front of the banknote bears the official logo called the World of Skovoroda, celebrating the 300th anniversary of Skovoroda’s birth. It was issued in 2022, and is sized 75 x 154 mm.

The main image on the front of the note is a portrait of Hryhorii Skovoroda.

The main image on the back of the note is the building of Kyiv Mohyla Academy.
